

Features

- One grapple assembly fits 66", 75", AND 84" rock buckets with 2" and 3" bucket tine spacing
- Hooks are welded to front tube rather than individual bolted for added strength and ease of assembly
- Replaceable front tine assembly
- Hooks do not extend beyond front plane of bucket tines
- Grapple hooks interlock with bucket tines
- Added structure between grapple arms to trap and contain debris
- Spherical bearings, threaded cylinder glands, and secluded grease zerks for added durability
- Easy to assemble grapple mounting

The **Bradco® Rock Bucket & Grapple** by Paladin is available in 2" or 3" tine spacing and is designed to collect rocks and debris, allowing the soil to sift through. Rake design is used for fast clean-up, ground leveling, sifting out debris & rocks and gathering material away from buildings and obstructions.
