The **Bradco Stump Grinder**, by Paladin, is available in standard flow and high flow. The standard flow model has a 26 diameter cutting wheel allowing up to 10 of below ground cutting, and the high flow model has a 30 wheel allowing up to 12 of below ground cutting. The 60 degree range of motion covers 45 in a single sweep.

- Two models available:
  - SG26 standard flow
  - SG30 high flow
- Tooth pattern permits cutting from side-to-side and vertical directions
- Wheel and tooth options available
When work needs to get done you need to be able to depend on your equipment. Our stump grinders are designed for maximum reliability, durability, and productivity.
