SFB500/750 SMALL BREAKERS

FOR MINI EXCAVATORS, BACKHOES, AND SKID STEER LOADERS

StrikeForce™ Small Mounted Breakers are a cost-effective and versatile solution that can be easily mounted onto various types of machines. This flexible mounting system adds value to any contractor's toolkit, making it a useful tool for road construction, utility installation, light demolition, and building construction. These breakers are designed to perform general activities, making them an essential tool for any construction project.

SMALL MOUNTED BREAKERS

FOR MINI EXCAVATORS, BACKHOES AND SKID STEER LOADERS

FEATURES

- The equipment offers dual mounting options, including flat top and pin-on, along with mini-excavators and SSL adapters. This feature maximizes the fleet's flexibility and minimizes the overall owning cost
- High power to weight ratio: From industry leading impact power and effective side plate structure design
- SSL mounting: Available for standard SAE SSL interfaces in either single or multiposition adapter options
- StrikeForce adapter pattern: Common pattern used by other StrikeForce tools in the same weight class, offering increased flexibility and versatility
- The safety feature of the equipment eliminates direct contact between the operator and the breaking work, ensuring the protection of the worker and preventing any potential injuries
